

Practice Advisor - Physical and Sensory Disability Permanent, Fulltime, or Secondment Papatoetoe or Albany based

Taikura Trust is a not for profit organisation that provides needs' assessment and service coordination support to people with disabilities and their families/whanau, who are under 65 years old. We work alongside key stakeholders in the disability community to support disabled people to live an ordinary life.

We are currently looking for a Practice Advisor, who has subject matter expertise in physical and sensory disability. Reporting to the Senior Practice Leader, this role will be responsible for building the capability of our NASC employees to deliver best outcomes for people with physical and sensory disabilities and their whanau.

For those interested in undertaking a secondment you will gain exposure to challenging projects and enjoy responsibility at all levels. You will have the opportunity for career development by working on diverse and often complex assignments.

We believe that the experience, challenge and reward of undertaking a secondment adds great value to both personal and professional development for someone with management potential, and is a positive way to build partnerships with the providers and/or community organisations that you work in now.

The key attributes to succeed in this position are:

- Subject matter expertise in working with children and/or adults who have needs relating to physical/sensory disability, and complex needs related to a combination of chronic health conditions and disability
- Experience in adult learning and coaching others;
- Excellent communication skills, able to build effective working relationships with key stakeholders, both internal and external;
- A commitment to developing others and improving the way we do things to ensure best outcomes for our consumers
- Relevant qualifications in disability/health or related field
- Skills in Te reo Maori and/or knowledge of Tikanga Maori would be an advantage.

If you have relevant qualifications, knowledge, skills and experience and the right attitude, we want to hear from you.
